Cloud Computing: The Hot tech certification that will boost your career. Technical certifications, the ticket to higher pay and more prestige, also keep you employed. The trick is to get the one that will really help keep or land that job. Cloud Computing Certification is one of the hottest tech certifications in today's job market. According to Foote Partners survey of more than 22,000 IT professionals, covering some 170 certifications, the most valuable certificates today settle mainly into two camps: architecture and security. Cloud Computing certification falls into the architecture category. Cloud Computing Certification is the most influential one for years to come, the one that will grow the fastest, the one that will show the true future of IT certification. Its the one that will rise the fastest. If you're looking for yet another sign that Cloud Computing is becoming a real player, then you've got it. So how did Cloud Computing Certification break through to the top? Having a stellar reputation never hurts, and The Art of Service is well known for the quality of its IT Certification programs, which tests candidates hands-on skills. Cloud Computing Certification is a truly challenging certification, It carries a lot more respect than others in the market. But the title wouldn't go anywhere unless its skills were seen as marketable. And high-level Cloud Computing skills may be more marketable than some might think. These days demand for a great Service/Architecture/Cloud Computing person outstrips the demand for general Microsoft administration skills.
