If you want to have the kind of intimate relationship that's built on a solid foundation of trust, then I have important news for you. My name is John Alanis, and for the past 8 years I've run a rather unique business, showing men how to attract the women they really want. Recently, I've also been showing women how to attract the men they really want. My years of dealing with relationships from both sides has made me an expert on all kinds of behavior. As a result, I know how men behave when they're happy and fulfilled in a relationship...and the clues they give that signal when something fishy is going on. I know how vital trust is to a relationship, which is why I want to help women know, once and for all, whether they've got a keeper or a player on their hands. Because I've seen how hundreds of men behave, both in and out of relationships, I can give you the unique, informed perspective you've been needing. Here's the good news: I have just published a brand new Kindle book, all about how to tell - for certain - whether your man is cheating or not.
